READ and SHOW CARD:

For the rest of the survey when we talk about alcoholic drinks, please think of a “whole alcoholic drink” as a **100 ml glass of wine, a regular 330 ml can of beer, or a 35 ml shot of liquor, such as** Whiskey, Cognac, Vodka, Brandy, or Gin.

TARJETA

Para el resto de la encuesta, cuando preguntemos sobre bebidas alcohólicas, por favor piense en un “TRAGO COMPLETO” como una copa de vino de 150 ml o una lata de cerveza común de 355 ml o un trago de licor 45 ml, como Singani, Ron, Vodka, Whisky o Tequila

1 TRAGO COMPLETO

VINO

150 ml

Una botella de vino contiene aproximadamente 5 tragos completos

CERVEZA

355 ml

Un paquete de seis latas de cerveza equivale a 6 tragos completos

LICOR

45 ml

Una botella común de licor fuerte de 750 ml contiene 17 tragos completos

For example, a six pack of beer consists of 6 drinks, a bottle of wine contains about 5 drinks, and a typical 750 mL bottle of hard liquor contains 17 drinks. If you had a larger drink, such as a large bottle of beer or an oversized glass of wine, please consider that more than one drink.
